MODULE

PROGRESS

	<div>Intro to Academy</div> <div>8 Sections Fundamental General</div> <p>Your first stop in Hack The Box Academy to become acquainted with the platform, its features, and its learning process.</p>	<div>100% Completed</div> <div></div>
	<div>Learning Process</div> <div>20 Sections Fundamental General</div> <p>The learning process is one of the essential and most important components that is often overlooked. This module does not teach you techniques to learn but describes the process of learning adapted to the field of information security. You will learn to understand how and when we learn best and increase and improve your learning efficiency greatly.</p>	<div>100% Completed</div> <div></div>
	<div>Linux Fundamentals</div> <div>30 Sections Fundamental General</div> <p>This module covers the fundamentals required to work comfortably with the Linux operating system and shell.</p>	<div>20% Completed</div> <div></div>
	<div>Introduction to Networking</div> <div>21 Sections Fundamental General</div> <p>As an information security professional, a firm grasp of networking fundamentals and the required components is necessary. Without a strong foundation in networking, it will be tough to progress in any area of information security. Understanding how a network is structured and how the communication between the individual hosts and servers takes place using the various protocols allows us to understand the entire network structure and its network traffic in detail and how different communication standards are handled. This knowledge is essential to create our tools and to interact with the protocols.</p>	<div>61.9% Completed</div> <div></div>
	<div>Setting Up</div> <div>9 Sections Fundamental General</div> <p>This module covers topics that will help us be better prepared before conducting penetration tests. Preparations before a penetration test can often take a lot of time and effort, and this module shows how to prepare efficiently.</p>	<div>100% Completed</div> <div></div>
	<div>Vulnerability Assessment</div> <div>17 Sections Easy Offensive</div> <p>This module introduces the concept of Vulnerability Assessments. We will review the differences between vulnerability assessments and penetration tests, how to carry out a vulnerability assessment, how to interpret the assessment results, and how to deliver an effective vulnerability assessment report.</p>	<div>64.71% Completed</div> <div></div>
